RE: MONTHLY REPORT FOR JANUARY

I greet you in the name of Jesus Christ and I thank you for the trust I have in my services

**ANNUAL ACTION PLAN 2009-2010**

OBJECTIVE: To improve the standards of living by 40% in our group and the neighbouring villages to copy them.

3. Preparation of demonstration garden	Farmers & Julius					✓ Activities are still needed
4. Purchasing of seeds (veg.)	Fr Charles & Julius					✓ Not done
5. Monitoring & evaluation	Fr Charles, board members, farmers & Julius	✓	✓		✓	✓ Successfully done
6. Construction of nursery shade	Farmers & Julius				✓	✓ Not done
7. Trainings (control pests & diseases)	Julius				✓	✓ Not completed
8. Trainings (banana management)	Julius				✓	✓ Incomplete

In January we had to continue with soil conservation and let me take this opportunity to inform you that those houses which were active had already implemented in their gardens (78 households). We got a land of an acre from our secretary and members have cleared it waiting for implementing the following activities

- ❖ Construction of nursery beds
- ❖ Organising demonstration plots
- ❖ Applying manure and

❖ Constructing granery

On soil fertility matters I trained them how to collect urine of animals, preparation, holding and using it in the vegetable and other types of crops. More to that I trained them the control of pests and diseases, their modal actions, injury, damages and losses then classification of pests, principles of pest control And some ways of controlling pests and diseases like banana weavils aphids and locusts.

MY TARGET:

I expected 107 household members this forum but 79 came in by an increase of one member.

We received a visitor from the president's office (presidential assistant agricultural adviser)

I used him to train banana management and he promised us to connect our group to world food program so that we can sell our Agricultural products on a high price.

Rev Fr. Charles Lwanga Mubiru bought some farm tools i.e 30 hoes, 10 rakes, 1 forkhoe & 12 spades, which we have been using to implement the activities & let me thank the group from Germany for having bought tools for us. May God bless you.

THE ACTIVITIES WHICH WERE NOT COMPLETED IN THIS MONTH

- Demonstration garden matters
- Soil fertility building
- Control pests & diseases (measures)
- Banana management
- Purchasing of tools

THE ACTIVITIES WHICH WERE NOT DONE

- Construction of nursery shades
- Purchasing of veg seeds & seasonal seeds

THE REASON WHY WAS NOT DONE AND OTHERS ARE INCOMPLETE

- Time management was a problem
- Limited demonstrational material
- Delay of funds
- The programme was big due to the people am dealing with on the ground i.e some are very old

MY SUGGESTED SOLUTIONS TO THE ABOVE PROBLEMS

- To train the farmers how to use time & how to choose the decision (which is important & but not agent neither important nor agent)
- To buy the demonstration materials

MONITORING AND EVALUATION

My objective: To improve / prove whether the farmers have understood what am training them & to see whether they had renovate implemented activities

INDICATORS

The indicators is as follows:

- More contours,L-drainage & cut off drainage
- Vistors books
- Cleared demonstration
- Attendance list
- Corrected urine
- Receipts
- Available tools
- Explanation of farmers

INDICATOR TRACKING TABLE

INDICATOR OBJECTIVE	SOURCE OF INFORMATION	MONTH
